Mark,  
Sorry but I could not get back to this. And I won't have a chance to look at it again until 8/15. By then I am sure there will be other Bristol Bay issues that will take my time. I was able to coach Dave on revisions but I don't know how well he incorporated them. Unless someone else wants to work with him in the next two weeks what we have is what we get.

Phil

**Subject:** Fwd: Workplan Revisions for Kodiak

Hi Mark:

This is what I sent to Phil. Please direct me to make any new revisions. At this time, we need confirmation that we can proceed so we can confirm with the Kodiak Island Borough & other potential partners.

Will stand by Best  
Dave

Hi Phil:

Enclosed are the 1st set of revisions for you to review. Again, this is the 1st time Kodiak has delved into a EPA Wetlands project so please bear with us.....we are very new to the EPA protocols. I'm not sure if I identified everything you requested correctly, especially in "Tracking Outputs & Outcomes" Please let me know if I need to insert more. I met with the Kodiak Borough yesterday & they will be a wonderful partner/collaborator for this project. We still need to firm up specific and more detailed milestone schedules. Everyone seems to be out of town, so please bear with us.

Thanks for all your help, I will stand by for your review.

Best Dave
